SPA 1.5

Total = 10.00

Emergency Work

This section includes all of your prospective emergency on-call work and the agreed availability for on-call.

Agreed on-call rota	0.75 PA DCC for on call within the 4.25 DCC Trust allocation
Agreed category	To be agreed
On-call supplement	To be agreed

Suitable office space and facilities with IT access will be made available at both the Belfast HSC Trust and University sites as required. The consultant will have appropriate secretarial support.

The Belfast Health and Social Care Trust

The Belfast Health and Social Care Trust was established in April 2007, comprising the Belfast City Hospital, Mater Hospital, Musgrave Park Hospital, Royal Hospitals and South and East Belfast and North and West Belfast Health and Social Services Trusts.

Hospital Profiles

Belfast City Hospital (BCH) is a major teaching hospital, most of which is housed within the Tower. The Northern Ireland Cancer Centre opened on the campus in March 2006. A strong strategic focus on molecular medicine, cancer and renal services has enabled the development of a vigorous research programme, together with a large Cancer Clinical Trials Unit. There is a modern radiology department and substantial AHP Services (e.g., Physiotherapy, Podiatry, Occupational Therapy, Speech & Language Therapy, Nutrition & Dietetics, etc) and a comprehensive range of pathology.

The Royal Hospitals is the largest hospital complex in Northern Ireland, comprising the Royal Victoria Hospital, the Royal Jubilee Maternity Hospital (RJMH), the Royal Belfast Hospital for Sick Children (RBHSC) and the School of Dentistry. It provides virtually all referral services in Northern Ireland and undoubtedly the vast majority of local research. Major re-developments of the Royal Group of Hospitals are underway, which includes the Royal Belfast Hospital for Sick Children. A new Critical Care Building with emergency department and operating theatres is currently in the process of opening. The Royal Hospitals play a major role in clinical education, training and research, with most academic departments linked to the Queen's University Medical School on the Royal Hospital's complex – medicine, surgery, ophthalmology, child health, obstetrics and gynaecology, and pathology.

The Mater Hospital is a long established general hospital with teaching status affiliated to the Queen's University of Belfast. A state of the art ward block, the McAuley Building, was opened in January 2002. The X-Ray Department is sited in the Dempsey Building, which was opened in 1991. The Dempsey Building also houses the Accident & Emergency Department, the Operating Theatres, the Intensive Care/High Dependency Unit and the Outpatient Department. The main Psychiatric Unit occupies a separate building next to the Dempsey Building. There is also a Psychiatric Day Hospital on a separate site, approximately one mile from the main hospital.

Musgrave Park Hospital is the Regional Orthopaedic Unit for Northern Ireland. The Musgrave Park Regional Orthopaedic Service is the largest in the British Isles with 48 consultant orthopaedic surgeons and staff. On site is the Queen's University of Belfast's Department of Orthopaedic Surgery which is the largest academic unit in Orthopaedics in the British Isles with an international reputation and an extensive research output

A summary of the services across the different hospitals is provided in the table below:

Site	General Services	Specialist Services
Belfast City Hospital	Acute & General Medicine Anaesthesia (including critical care) Pain Management	Adult Cystic Fibrosis Breast Services (including reconstructive surgery) Cardiology Gynaecology & Gynaecological Oncology Haematology Haemophilia Service Medical Genetics Medical Oncology

		Nephrology (including Renal Dialysis) Radiotherapy Respiratory Medicine Transplant Surgery Urology

Mater Hospital	Emergency Department Acute & General Medicine Anaesthesia (including critical care) Pain Management	Surgical specialties, including Hepatobiliary, Ophthalmology, Gynaecology, Psychiatry
Musgrave Park Hospital	Anaesthesia Pain Management	Regional Orthopaedic unit Rheumatology Rehabilitation Regional Acquired Brain Injury Unit Care of the Elderly unit

Royal Belfast Hospital for Sick Children

The Royal Belfast Hospital for Sick Children (RBHSC) is the Regional Referral Centre for tertiary specialties in Northern Ireland and also serves as the local District General Hospital (DGH).

RBHSC records about 39000 attendances at its Emergency Department (ED). RBHSC is an 91 bed hospital (12 PICU) which functions as a District General Paediatric Unit and in addition houses most of the Paediatric Regional Specialties for Northern Ireland, including Intensive Care, Neonatal Surgery, Trauma and Orthopaedics, Plastic Surgery and Burns, Child Psychiatry, Nephrology, Neurology, Neurosurgery, Cardiology, Respiratory Paediatrics, Infectious Diseases, Cystic Fibrosis, Haematology, Oncology, Rheumatology, Gastroenterology, Inherited Metabolic Disorders, Diabetology, Endocrinology and Dentistry.

The main hospital laboratory complex, including the Regional Endocrine Laboratory and Virus Reference Laboratory, is a short distance away on site. Within RBHSC there is a Radiology Department, a Dietetic Department, Physiotherapy Department, Clinical Psychology, Speech Therapy, Occupational Therapy and Play Specialist Department. A new building, opened in 1999, provides significantly upgraded accommodation for A&E Department, Outpatient Department, Theatres and Paediatric Intensive Care Unit as well as the Medical Records Department.

The regional neonatology unit is located within the Royal Jubilee Maternity Service on the Royal Hospitals site. The outline business case for a new Children's Hospital has just been accepted and this will be physically adjacent to the new maternity hospital and neonatology.

General Information

Mentoring

All newly appointed Consultants will be issued with an individualised Induction Programme and Trust Induction as it is mandatory for all aspects of the induction programme to be undertaken. Arrangements are also in place to seek advice from senior management and specialist staff within the specialty team.

Governance

The successful candidate will be expected to work within the Belfast HSC Trust and Queen's University Belfast governance frameworks. QUB and the Trust are committed to conducting a process of yearly appraisal of consultant staff, which is used to support GMC revalidation.

Multiprofessional Audit and Continuing Medical Education

The postholder will be required to take part in the Trust quality improvement programme. They will also be required and supported to undertake such continuing educational activities as are necessary to maintain revalidation by their Royal College

Information Governance

All employees of Belfast Health & Social Care Trust are legally responsible for all records held, created or used as part of their business within the Belfast Health and Social Care Trust, including patient/client, corporate and administrative records whether paper based or electronic and also including e-mails. All such records are public records and are accessible to the general public, with limited exceptions, under the Freedom of Information Act 2000, the Environment Regulations 2004, the General Data Protection Regulation (GDPR) and the Data Protection Act 2018. Employees are required to be conversant and to comply with the Belfast Health and Social Care Trust policies on Information Governance including for example the ICT Security Policy, Data Protection Policy and Records Management Policy and to seek advice if in doubt.
