

## **Candidate Information**

<b>Position:</b>	BIM Implementation Coordinator – KTP Associate – MDE Installations
<b>School/Department:</b>	KTP and Business Networks
<b>Reference:</b>	19/107911
<b>Closing Date:</b>	Tuesday 19 November 2019
<b>Salary:</b>	£25,000– £31,000 per annum. One of the key KTP benefits for graduates is access to a £11,600 training and travel budget over the 30 month project.
<b>Anticipated Interview Date:</b>	Friday 6 December 2019

### **Job Purpose:**

Implementation and development of in-house BIM capability to add value to existing projects and generate new clients by reducing fragmentation on projects and identifying efficiencies.

### **Main Activities and Responsibilities:**

We wish to recruit a highly skilled and motivated graduate to work in MDE Installations in collaboration with Queen's University Belfast for 30 months. Through this Knowledge Transfer Partnership, MDE Installations seeks to implement and develop of in-house BIM capability to add value to existing projects and generate new clients by reducing fragmentation on projects and identifying efficiencies. The postholder will be based in MDE Installations in Omagh, Co. Tyrone.

The programme of work will consist of the following project stages:

1. Review the market in which MDE Installations operate and identify strengths and weaknesses.
2. Appraise the company's existing capabilities relating to the use of BIM technologies, their expertise in 3d modelling M&E Installations and the use of 3d technologies to assist in the retro-fit out of existing buildings and recording of these installations.
3. Develop and implement digital workflows & Common Data Environment (CDE) within MDE, including head office, on-site setup and interactions.
4. Identify three potential case studies for trialling the implementation of 3d design, 3d recording, the common data environment and IT Infrastructure, to support the use of 3d software and technologies, both on-site and in head office.
5. Apply software, hardware to case studies.
6. Examine and resolve any potential interoperability issues, both at head office and also on-site within MDE.
7. Development of a digital workflow process to facilitate embedding capabilities relative to the application of 3d design, 3d capture / recording of existing installations in the associated IT infrastructure and common data environment within MDE; both in head office and on-site.
8. Integrate 3d technologies and data collection with the newly developed and implemented IT Infrastructure and CDE on the case studies identified (including on-going market/technological review).
9. Monitor and modify the development and training of each of the elements based on the feedback and results from the case studies.
10. Monitor, control and embed the knowledge gained within MDE.

### **Planning and Organising:**

1. Manage and coordinate the items of work as laid out in the project plan (individual work plan will be provided by Supervisors).
2. Plan day-to-day activity within the framework of the agreed work plan.
3. Contribute to the planning and management of the project, approximately 3-6 months in advance.
4. Ensure that all training and development activity is scheduled to ensure that progress on the work plan objectives is not interrupted or delayed.

### **Resource Management and Responsibilities:**

1. Plan and manage day-to-day resources to ensure the project runs to time and on budget.
2. Coordinate and obtain approval for planned expenditure/allocation of resources with the Management Committee and Steering Group.
3. Carry out supervision of placement students or other staff members as required.

4. Monitor travel and development budgets and produce a Personal Development Plan which will ensure best use of financial resources.
5. Attend training modules (mandatory and additional job-specific training). This may be local, national and international.
6. Perform any other additional duties as agreed by the Local Management Committee and Steering Groups to contribute to the development of the company, the university and the Associate.

#### **Internal and External Relationships:**

1. Present regular progress reports to members of the Steering and Management Groups and to external audiences.
2. Liaise with company staff on a daily basis. Contribute to training of staff in the company and university as required.
3. Build relationships with both company and university staff to ensure effective working practices are established.
4. Attend and contribute to any appropriate meetings, both in the company and the university as required.
5. Establish contacts with additional groups and organisations (other KTP Associates, other university departments, other industrial contacts, and Innovate UK) as required to develop knowledge and understanding and form relationships for future collaboration.
6. Act as an Ambassador for the Knowledge Transfer Partnership Scheme.

#### **Additional Information:**

1. Knowledge Transfer Partnerships is a UK programme that enables businesses to work with universities to gain access to specialist knowledge and expertise and apply it within their organisation. Each Partnership recruits a Graduate to work in the company, implementing and embedding the latest research techniques. Guidance is provided by the academic and company supervisors to ensure that the objectives of the project are met. Although the scheme is aimed at recent graduates, any suitably qualified individual may apply.
2. Each KTP is a fully salaried job that lasts between twelve and thirty six months, providing the graduate with an opportunity to fast track a career in industry. Each KTP Associate has a training and development budget and a travel budget. This funding provides opportunities for job-specific training, attending and presenting at conferences, visiting trade shows, customers and suppliers etc. Two, one week residential management training modules are also provided as part of the package.
3. This partnership received financial support from the Knowledge Transfer Partnerships (KTP) programme. KTP aims to help businesses to improve their competitiveness and productivity through the better use of knowledge, technology and skills that reside within the UK knowledge base. This successful Knowledge Transfer Partnership project, funded by UK Research and Innovation through Innovate UK, is part of the government's Industrial Strategy.
4. As members of University staff, KTP Associates can join the University pension scheme, gain access to University resources such as the Library and sports facilities.
