

Candidate Information

Position: Professor of International Relations
School/Department: School of History, Anthropology, Philosophy and Politics
Reference: 24/111701
Closing Date: Monday 22 April 2024
Salary: Professorial salary will be determined in accordance with the professorial ranges applied within the University.
Anticipated Interview Date: Thursday 30 May 2024

JOB PURPOSE:

The School of History, Anthropology, Philosophy and Politics seeks to appoint a Professor of International Relations of the very highest international standing. The appointment is to undertake high quality research, deliver excellent teaching, enhance international connectivity and provide significant academic leadership in line with the School's research strategy. The Professor will make significant contributions to the mentoring and development of early-career staff, support and enable the development of large-scale externally funded research projects, and support and enhance the ongoing production of significant and impactful research outputs of the highest quality.

MAJOR DUTIES:

Teaching:

1. Provide high-quality teaching in International Relations, including provision of teaching within core subjects as required.
2. Supervise and advise postgraduate taught and postgraduate research students.
3. Act as internal examiner as required, for example in respect of postgraduate research students.

Research:

1. Undertake high-quality research in an area of International Relations which enhances the profile of the School.
2. Sustain an extensive track record of published research of the very highest international distinction, by publishing in refereed journals, with leading publishers, and presenting at national/international conferences.
3. Pursue large-scale funding activity (particularly projects likely to be supported by Research Council UK and equivalent external funders) which develops and sustains research support for International Relations in general and in his/her particular specialisation and that, in general, advances the reputation of the School and the University.
4. Develop strategies to attract both national and international research students, including via the pursuit of external funding opportunities.
5. Recruit and provide supervision for research students.
6. Direct, mentor and develop academic and research staff.
7. Ensure that research projects are completed on time, within budget and with an eye generating outputs and impact of the highest quality.

ESSENTIAL CRITERIA:

1. Relevant degree with a PhD completed in International Relations.
2. Recognised excellence and reputation in International Relations – research internationally acknowledged as world-leading.
3. Sustained publication record of outputs of world-leading quality that fully demonstrates a formative and lasting contribution to the field.
4. Sustained record of securing and enabling large-scale research funding, awarded through competitive external peer-review processes.
5. Sustained record of successful delivery of such funded projects, including the management of financial and human resources.
6. Sustained record of successful PhD supervision, including demonstrated potential to develop PhD and postdoctoral funding sources.

7. Sustained track record of invitations as keynote/plenary speaker at major international conferences/University named lectures; chair of major conferences/events.
8. Substantial experience of teaching and assessment at University level.
9. Evidence of ability to teach and assess core modules in International Relations at undergraduate and postgraduate level.
10. Substantial and significant experience of providing academic leadership at a strategic level in Higher Education.
11. Demonstrated ability to contribute to the academic leadership of the School in general and the appropriate research field in particular.
12. Outstanding contribution to the development of staff and students. Sympathetic to the needs of early-career researchers, with demonstrable ability to provide effective mentoring.
13. Proven ability to plan and deliver a programme of research and proven skills in coaching and developing others in best practice techniques.
14. Involvement in productive external collaboration with leading international scholars and non-academic beneficiaries, with demonstrated ability to develop impactful international research and impact opportunities of the highest quality.
15. Executive roles on, or committee membership of, major national and/or international bodies, and/or evidence of a track record of providing advice to governments or other significant universities.
16. Ability to communicate complex information effectively.
17. Ability to provide effective leadership.
18. Understanding of resource management processes and skills to apply them effectively.
