### JOB PURPOSE:

The purpose of this job is to conduct Neuropsychological research in the context of a brain stimulation and neuroimaging laboratory.

### MAJOR DUTIES:

1. To assist in experiments involving brain stimulation and electroencephalography (EEG), and analysis of the resulting datasets.
2. Produce high quality research outputs in oral and written format.
3. Produce high quality research outputs consistent with project aims and commensurate with career stage. This will include collaborating and co-authoring with PI and project team (as appropriate) on outputs.
4. In consultation with the project team, promote research milestones and outputs at national and international conferences.
5. Assist grant holder in the preparation of funding proposals and applications to external bodies.
6. Carry out occasional educational supervision, demonstrating or lecturing duties within the post holder's area of expertise and under the direct guidance of a member of academic staff.
7. Undertake supplementary duties relevant to the success of the project including administrative duties and additional training and development activities as required.

### ESSENTIAL CRITERIA:

1. Have or about to obtain a degree in Psychology or Neuroscience.
2. Recent relevant experience to include:
  - Experience working in a Neuroscience / Neuropsychology research environment.
3. Willingness to undertake additional training in research methods and other related skills as required.
4. Practical problem-solving skills, independence of thought and initiative.
5. Ability to communicate complex information effectively in oral and written format.
6. Ability to build relationships to develop internal and external networks.
7. Ability to assess and organise resources.
8. Willingness to travel to meet the requirements of the research project.

### DESIRABLE CRITERIA:

1. Working towards a PhD in the area of Neuropsychology.
2. A publication record which is commensurate with career stage and experience.
3. Experience working as a research assistant in a relevant field.
